Footer

This is the first page users see upon going to the site address. Users can get a general idea about the web app and navigate further in the website. From here they can click links to create or browse posts, create posts, and etc/access the features of the site.
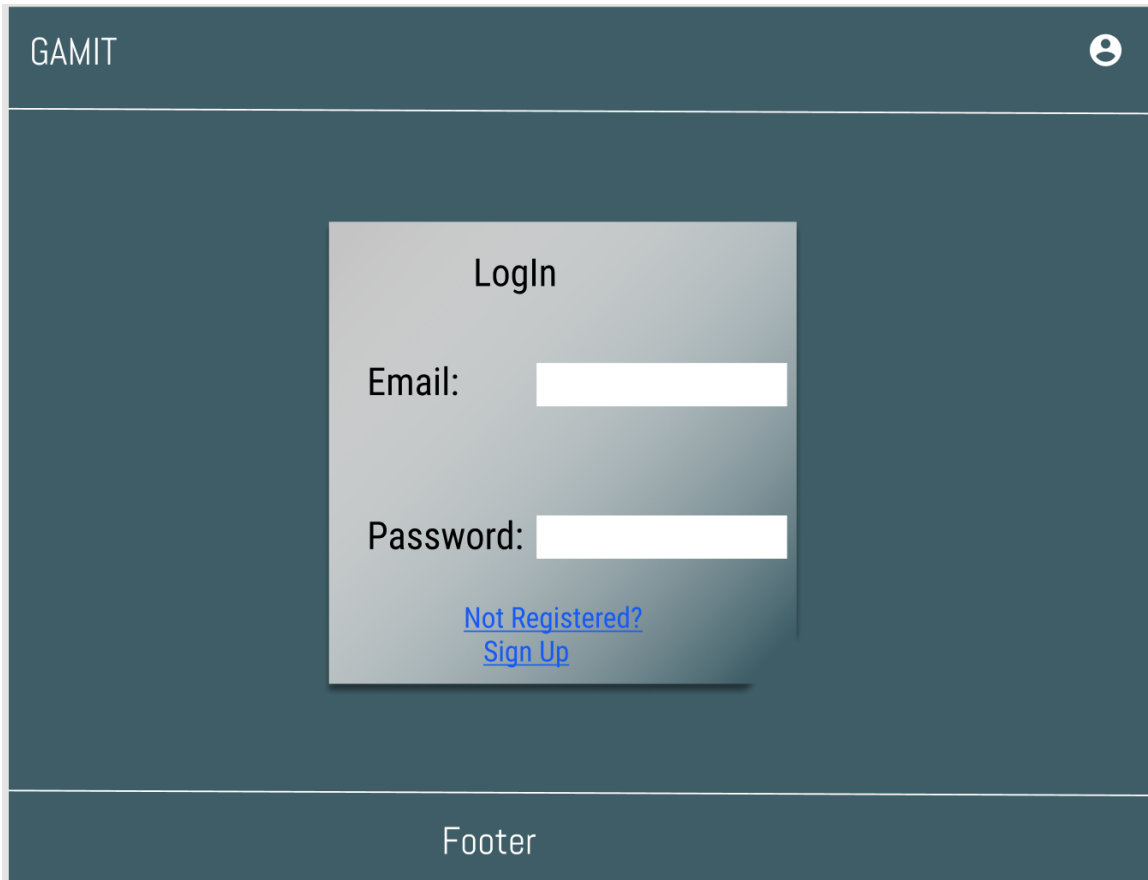

2. Sign Up

The Sign Up page where new users can register an account. Users will have to enter their first name, last name, email and password, and accept terms and conditions to create an account.

3. Log In

The Login Page. Where users can login to their account to access features of the website. Users will have to input their email and password to log in.

4. Create Post

The Create Post Page where users can create a post and submit it for others to see. Users can select sports they are interested in, time they would like to play the sports, number of players they would like to play with and skill level.

5. Filter & View Post

The View Posts Page where users can browse pages by filtered criteria. The displayed result will match the search criteria users input.
